

HEALTHCARE

In an industry focused on top quality care and facing ever-changing technological standards, the best healthcare facilities require well-designed environments. We make the process of the creating that environment as smooth as possible so you can focus on the end goal: delivering the utmost in patient care.

PLANNING

We want to help you make the most of your land. We'll assess the feasibility of your visions and create a solution that meets your goals and budget.

- General Plans
- Master Plans
- Multi-use Plans
- Subdivision Planning
- Conceptual Designs
- Site & Utilization Design Strategies

HYDROLOGY

From storm water engineering to wastewater flow analysis, we can provide a comprehensive look at the hydraulics of your site.

- Flood Plain Analysis
- Drainage Reports
- LOMR/CLOMR
- Channel Design
- Master Drainage Studies
- Culvert and Storm Drain Design

FULL CIVIL LAND DEVELOPMENT ENGINEERING

We offer a full range of services to carry you from conceptualization to construction. Maverick takes a simple, straightforward approach to realizing the goals for your land.

- Survey Coordination
