

MAVERICK ENGINEERING

ma • ver • ick *someone with an untraditional mindset, not afraid to break from the norm*

At Maverick, we embody our company name simply by doing things differently. With a hands-on, accessible team dedicated to executing projects with innovative, practical, and cost-effective solutions, Maverick exists to be a champion for our clients. We provide straightforward guidance and high-quality solutions without the unnecessary red tape.

Maverick offers both private and public sector clients a full range of professional services in civil engineering & surveying, from land planning and development to infrastructure and public works.

How can we help YOU?

Developer

We'll coordinate everything from feasibility to final site development and help eliminate extra steps

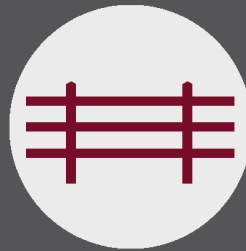

Municipality

Maverick can act as City Engineer, handle land negotiations, and be a third party review for public works

Contractor

Maverick can collaborate with general contractors to look at as-builts and assist with bid reviews

Private Land Owner

We'll support you through each step of developing your property, providing the guidance to get the most from your land

Home Builder

Whether it's one lot or hundreds, we can help prepare real estate for dream homes or multi-phase Master Planned Communities

Architect

Let Maverick be a part of your team - our site plans will help your vision become a reality
