

We know **YOU**
by
your first name;
not your
employee
number.

WHO WE ARE: Maverick Engineering (Maverick) is a woman-owned civil engineering firm based in Midland, TX. If you like corporate structure, this is not the company for you. Our staff enjoys a relaxed atmosphere without being in a cube farm. With their passion for engineering, our senior staff guide our young talent to grow and develop into knowledgeable, high-performing engineers. Even though our work is serious, we have fun while doing it.

WHAT WE DO: We provide private and public sector clients with a full range of professional services in civil engineering and land surveying. Maverick provides planning, design and construction administration services in these areas to provide clients everything needed to carry projects from concept through completion.

WHAT WE SEEK: We are looking for an experienced Water Resources Engineer to grow with us. As an Engineer with Maverick, you will work with our team performing:

- Engineering analysis, calculations and design.
- Develop technical studies, reports, design documents, plans and specifications for civil and water resources projects.
- Prepare hydraulic models.
- PWS Well and Haul designs.
- Project management duties will expand with experience.

QUALIFICATIONS REQUIRED:

- Bachelor or Master degree in Civil Engineering.
- Minimum 5 years experience in civil engineering and water resources.
- TX PE license or ability to attain through reciprocity.
- AutoCAD or Microstation experience.

Maverick offers an excellent compensation package including health/dental/vision insurance. We are an equal opportunity employer. If this opportunity sounds like a great match for you, please email your resume to Human Resources at info@maverick-eng.com.
